

Are you visiting today?

We know attending a new church or a different church or attending worship for the first time can be daunting and uncomfortable and even somewhat scary. We want to help you feel welcome here as much as possible.

First, everything in our worship — the order of service, the prayers, the music — is all **projected** on the screen.

Don't be embarrassed if you have **small children** and they are making noise — we are glad at their "holy sounds." If you feel they are a distraction, there's a tot's room in the back right corner that you are welcome to use.

Sunday School takes place during worship usually right after the children's time. If there is no Sunday School on a particular Sunday we invite children to colour and draw at the table on the right side.

Each Sunday service includes at least two **bible readings**. The page numbers on the slides refer to the bibles that are found in the pew holders — the red ones are regular print, the black ones are large print.

Some churches pass **offering plates** around, we leave ours at the back near the entrance doors. As our guest, we don't expect you to make an offering, but if you would like to, you can place it in the plates either before or after the service. Any donation more than \$20 with your address marked on an envelope is eligible for a tax receipt.

Pretty much every Sunday we celebrate **holy communion**. We practice an open table: welcoming all of God's people to share in the presence of Jesus. If you need gluten/dairy free bread or grape juice just let the communion servers know.

We don't print out a bulletin with announcements but if you want to know what's happening at Unity visit our website www.unitymh.com — you'll find the link to our weekly newsletter "CommUnity News" midway down the home page. You can even add your email to our mailing list.

We hope that you will find God's blessing through worshipping at Unity today, as your presence is a blessing to us.
